The Trade house "Vingra" has been producing items of quality from leather and leather substitutes since 1991. From the very beginning of its activities, the firm was striving for productive flexibility. During several years of dynamic development, the firm "Vingra" has won a dominant position in the internal market of Lithuania and has become an attractive and reliable exporter of its products to various foreign countries. Due to experience of its German partner, the firm has achieved top quality of its production and ability to promptly respond to customer demand.

Firms working in stationery, souvenir and leather haberdashery markets are our main customers. For convenience sake, every year we design new samples considering customer demand, present samples made from new modern leather and its substitutes, and observe change in fashion of this kind. All the materials and equipment we use are made by European producers. The souvenirs are packed in gift boxes.

# Products' delivery terms

SERVICES:	<i>We manufacture the production upon request. We dispatch the products in corrugated cardboard boxes. Additionally we manufacture gift boxes for models specified in the price list. We can make the embossing on the articles and packing (gift) boxes.</i>
